Art Unit:

Claims 1-2 and 5-20 are presented for examination.

The amendments and remarks filed on February 13, 2002 have been received and entered.

Claims 1-2 and 5-20 are again rejected under 35 U.S.C. 103 as being unpatentable over Koutby and The UK Patent for the reasons set forth on page 2 of the office action of February 13, 2001.

Applicant's arguments and remarks have been carefully considered but are not deemed to be persuasive. Applicant alleges criticality to the size of droplets in a jet or stream in order to deliver the entire dosage form. The allegation is not well taken. The prior art clearly teaches the use a jet or stream of droplets in the pharmaceutical field. Such droplets have been routinely used for the delivery of pharmaceutical active ingredients and obtaining effective results. There is no evidence of record to demonstrate the advantage of the claimed droplets over the ones used by the prior art and, as such, the prior rejection sustains.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit:

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
